

# HSL Utilities Ltd

HSL Utilities Limited is committed to leading the industry in minimizing the impact of its activities on the environment.

The key points of its strategy to achieve this are to:

- Comply with requirements of environmental legislation and approved codes of practice
- Assess the environmental impact of all historic, current and likely future operations
- Continuously seek to improve environmental performance
- Reduce pollution, emissions and waste
- Reduce the consumption of raw materials by recycling and using recycled materials
- Reduce the use of all raw materials, energy and supplies when at all possible
- Raise awareness, encourage participation and train employees in environmental matters
- Actively promote recycling both internally and amongst our customers and suppliers
- Liaise with the local community
